

# BCR<sup>®</sup> Nylon Single-Knit Glove Liners

## COMPOSITION AND ATTRIBUTES

- 100% knitted nylon – comfortable protection against skin irritation caused by latex, urethane, PVC, and other chemical handling gloves
- Half fingered design covers palm and parts of fingers to permit tactile use while wicking moisture from palms
- Full fingered design covers entire hand
- Reusable, ambidextrous, seamless construction
- Can be laundered
- Color coded cuffs denotes size

## APPLICATIONS

- For use in laboratories and manufacturing environments
- Liners provide a thin barrier for wet and temperature related processing
- Can be used alone as inspection gloves or in gowning areas

## VITAL STATISTICS (AVERAGE DATA)

(not applicable)
