

ProjX® 700

55% Cellulose / 45% Polyester Nonwoven Cleanroom Wiper

ProjX® 700 is a creped cellulose / polyester nonwoven wiper recommended for ISO Class 5 and above environments composed of a hydroentangled nonwoven blend of 55% cellulose and 45% polyester. This

combination of properties provides ProjX® 700 with the level of absorbency, abrasion resistance and chemical compatibility required for controlled environments and applications where both cleanliness and economy are of the most importance.

Key Attributes

- 55% cellulose / 45% polyester hydroentangled nonwoven blend
- Creped for increased absorbency to weight ratio
- No binders or other chemical additives

Benefits

- Excellent combination of the synthetic polyester strength and cleanliness with the absorbent characteristics of cellulose
- Creped design for increased absorbency characteristics
- Low extractable levels
- Durable with good wet strength
- Chemically compatible with common cleaning and disinfecting solutions
- Autoclavable
- Economical

Environmental

- Complies with RoHS 2002/05 and REACH requirements
- Lightweight design helps reduce landfill waste impact compared to heavier weight nonwovens
- 55% cellulose fiber content is biodegradable

Applications

- Designed for use in ISO Class 5 and higher cleanroom environments
- Excellent choice for entry level cleanroom construction wiping needs
- General purpose wiping and spill control
- General wiping in component prep, compounding and wash areas
- Low NVR's make good for general wiping and cleaning in biomedical environments
- Applying and removing cleaning and disinfecting solutions

Other Class 5 and above nonwoven wipers

- BlueSorb® 750
- Durx® 670
- Durx® 770
- MicroFirst®
- MicroFirst LP®
- Pro-Wipe® 750
- Pro-Wipe® 880
- ValuClean®

Pre-Wetted Option

The same wiper material can be provided in pre-wetted formats for reduced VOC emissions, increased convenience, increased productivity, improved solvent control and cleaning protocol repeatability and reduced costs.

Sterile Validated Option

For aseptic processing areas, the same wiper material can be provided in a gamma irradiated validated sterile to a 10⁻⁶ sterility assurance level. Dry and pre-wetted versions available.
